

Geography Terms Booklet

Similar to the example you were given (below), you will be creating a Geography Terms Booklet. The book will be 10 pages and must correctly define at least 10 different geographic terms. You may choose 10 terms from the pages **GH14** and **GH15** in your textbook (**List Provided**). In addition to the 10 terms, you may do **1 extra page for an extra credit point**.

Each book must have the following...

- At least 15 different geographic terms defined (you **MUST** number the term on each page)
- A picture showing a real world land form application/example of the term.
- A sentence correctly using the term.

**see my example for guidance

The books must be neat and show effort (color, quality artwork, creativity)

Due: Tuesday, September 30.
